ABOUT ME

Currently in my third quarter of Software Development Engineering, I am motivated to contribute to professional environments through open-source projects and bootcamps. My broad interest across domains enables rapid learning and application of new technologies. I thrive in collaborative teams, often taking leadership to drive sound decisions that benefit the group. With strong analytical skills and adaptability, I perform effectively in dynamic, challenging settings. I look forward to applying my Python and Java skills and innovative mindset to cloud development initiatives.

EDUCATION

TECNOLOGICO DE SOFTWARE (2024-2026)

Advanced Technician in Software Development

EVENT PARTICIPATION

Speaker – “Python and Web 3.0,” Universidad Modelo

Presented on developing Web 3.0 solutions with Python.
